

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

June 28, 2022

Dear King Members, Friends, and Family:

The Wisconsin Department of Health Services (DHS) continues to see a higher spread and impact of COVID-19 across our state again today. While we are grateful to have low transmission levels of COVID-19 in Waupaca County, we are seeing an increased presence on campus. Please take precautions this summer to practice healthy behaviors in your daily routine to mitigate the potential spread of the virus into our Home.

Since we last updated you yesterday, we have had 3 employees test positive for COVID-19. Accounting for all recent recoveries, currently we have 21 cases of COVID-19 on campus (8 members, 13 employees).

If you have not yet been vaccinated or boosted, we highly encourage you to do so and stay up to date, as the benefit of the vaccine degrades over time. According to Wisconsin DHS, unvaccinated people are more than twice as likely to be hospitalized due to COVID-19 than people who had received their booster doses, and nearly six times more likely to be hospitalized than people who had received their primary series.

If you are not feeling well, please do not visit until you have had a chance to take a COVID-19 test and have fully recovered from your symptoms. If you are planning to visit our campus, all visitors are asked to wear an N95 or KN95 mask when in our buildings and perform a health check assessment upon arriving.

Thank you for your continued commitment to the health and safety of our Home.

Sincerely,

Tammy Servatius
Commandant
